Dear Parents/Carers,

### Re: Hot weather

As you will be aware we are experiencing extremely warm weather at the moment. During the cooler mornings students are expected to arrive at the Academy in full uniform including their blazers. From break-time (11:10am) for the remainder of this week, there will be no requirement for students to wear their blazers around the academy, or in lessons. Students should ensure they carry their blazers or place them in a bag. School shirts and ties must be worn at all times as normal. We appreciate the need for students to remain cool in the warm weather, and there is no need for students to wear jumpers or coats

At the Academy, we ensure there are cooler shaded areas for students to use during breaks and lunchtimes. Students are able to bring in water bottles and fill them up at break and lunchtime as required, using our water fountains. It is important our students remain hydrated. Please note fizzy drinks are not allowed at the Academy, and students caught with these type of drinks will have them confiscated.

### Sun safety

As always, please ensure students apply sun cream in the mornings prior to attending the Academy where appropriate. It is important students do not risk getting sunburn.

Yours sincerely,

Louise Lee  
Principal
